"A Ruby In The Making"

IMPLEMENTING THE H.O.W FORMULA

Have you ever found yourself inspired by a speaker you heard or a workshop you attended and wanted to change your life around? So, you take lots of notes, you invest in their products and read their books, only to realize that you have no clue *HOW* to implement any of it? Is that you? We've all been there.....
Learn H.O.W with Amazing Rare Rubies!

HARVEST THE CHANGE

Harvesting is the process of gathering in crops. When discovering HOW to do something, you'll want to start by gathering information; do your research and due diligence! Be creative with it such as taking a class, attending a talk or workshop, and reading books.

As a general goal, aim to expand your knowledge and awareness of that topic

OPEN MINDSET

Open Mindset is the process of being open to new ideas and perspectives. Next, you'll want to Harvest the change WITH an Open Mindset. Change requires flexibility and you cannot do so without getting out of your comfort zone. Process and digest this new information and way of thinking. Make sure you understand it to become fluid with it.

Pray and practice the Ruby Trait: Courage

WORK THE CHANGE

Work the Change is the process of taking action on the change you have identified. Once you find yourself comfortable with your Open Mindset, Work the Change into a lifestyle. This means to take action! By doing so, the lifestyle merges in as apart of you. Voila! Next time you find yourself asking HOW to do something, realize you've already answered your own question by asking H.O.W.

Remember This. You can Begin to Be right where you are. You were born equipped with every trait you will ever need to cultivate for becoming the Woman that God created you to be. And Keep God in every decision made, lesson learned and message taught.
